2021 CATALOG

MAXXMARKA

LEADING SUPPLIER OF AUTOMOTIVE AFTERMARKET

MAXX SOLUTIONS

PRODUCTS THAT MEET THE TOUGHEST INDUSTRY STANDARDS.

MAXX Solutions is a line of high performance and top quality lubricants distributed through a reputable network of marketers and retail outlets around the world. **MAXX Solutions** products are specially formulated with premium base oils and advanced additive technology to prove outstanding protection to on-road and off-road equipment applications in a wide range of operating conditions.

Every **MAXX Solutions** product is certified to meet or exceed the latest specifications set forth by the Original Equipment Manufacturers (OEMs), the American Petroleum Insitute (API), SAE, ILSAC, ACEA and other international agencies.

EXTENSIVE LINE OF TOP-QUALITY PRODUCTS

MAXX Solutions' extensive line of products includes premium products for passenger cars, commercial vehicles, off-highway applications, marine, construction, manufacturing and agriculture equipment. Few other suppliers can match **MAXX Solutions'** depth of product selection. Our products are packaged in a wide variety of sizes and styles, including 12oz., 32oz., and 1 gallon bottles; 5 gallon pails, 55 gallon drums, and 265 and 330 gallon totes. High quality products are also available in bulk, ISO containers, and Flexibags.

ADVANCED TECHNOLOGY CREATES HIGH PERFORMANCE PRODUCTS

Multiple levels of stringent quality control testing are carried out in our certified laboratory to stay on the cutting edge of lubricant technology. We also constantly monitor the quality of our raw materials, safety standards, shipping processes and deadlines. All of this is done to maintain the highest levels of quality and customer satisfaction.

POLICY STATEMENT ON SAFETY AND PRODUCT INTEGRITY

Safety is everyone's responsibility. It is the goal of the Company to provide a safe working environment for all employees. To accomplish this, management has implemented safety policies that provide reasonable safeguards, training, and personal protective equipment (PPE) to help insure a safe working environment and support the safe and efficient operations of the Company's activities.

No job, task, or delivery is so important or so urgent that we cannot take time to perform our work safely. All employees are expected to use safety equipment and practice safe work procedures daily. The joint cooperation of all employees and management in observance of these policies will help provide safe working conditions and will reduce work related accidents - this benefits everyone!

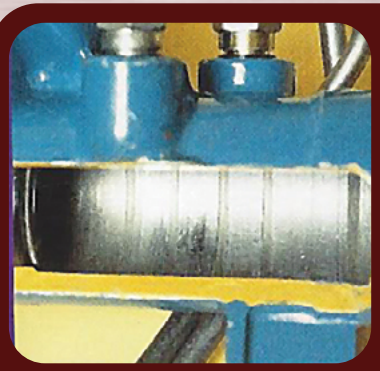
Product Integrity is about delivering on the customer's expectations for "**Performance as Promised**". The customer pays for and expects a specific product and the performance that goes with it. Our duty is to deliver on that expectation. We ask for your cooperation and support to help accomplish this goal. Management will provide the tools and training needed to support all staff. We want to thank all of you for the efforts you put forth every day in support of these goals. Together we will make this a safe, productive, and profitable company. We care about you and our customers.

Our customers and you matter to all of us. Working together, we deliver!

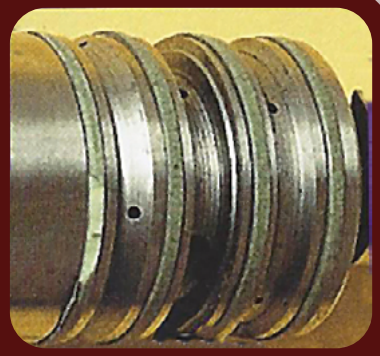
Company Profile	2
Power Steering Exchange Service	4-5
Cooling System Exchange Service	6-7
Brake Fluid Exchange Service	8-9
Tranmission Fluid Service	10-11
Gasoline/Air Induction Cleaning Service	12-13
Performance Oil Change Services	14-15
Carb & Choke & AC Evaporator Services	16-17
LUMI Light	18-19

MaxxMarka Power Steering Fluid Service:

MaxxMarka PowerMaxx, using **Maxx Solutions Power Steering Cleaner**, provides remarkably effective cleaning of the entire system. The entire power steering system is flushed, and the old, oxidized and contaminated fluid is removed and replenished with new fluid without entrapment of air within the components. This service will remove abrasive wear metal and debris that grinds away at valves and seals. The service is completed by adding **MAXX Solutions Power Steering Treatment** to the new fluid. This will protect the power steering system by preventing its fluid from oxidizing.



Grooves are worn into the soft metal of the spool valve housing by hardened seals.



Power steering spool valve with hardened, cracked seals.

PowerMaxx Machine

represents the latest technology in power steering fluid exchange equipment. By turning a single green valve, the precise exchange of fluid directly from the power steering pump reservoir can be achieved with no overflow due to automatic shut-off in less than three minutes. To guarantee zero downtime, the PS Flush is maintenance free with no mechanical pumps or AC/DC components that need replacement. The **PowerMaxx 10 Liter Power Steering Exchange** has a remote empty feature in Disposal mode to save time and gain productivity. The large swivel casters and small footprint make the PS Flush Machine highly maneuverable in tight spaces. The PS Flush is simple to use, keeps the user and shop clean, and is environmentally safe.

PART# MX1

BENEFITS

- Alleviates steering squeal and helps in quieter operation
- Helps prevent leaks by keeping the seals soft and pliable
- Rveduces the steering jerky feeling
- Reduces wear and prevents steering from becoming noisy
- Increases the life of steering system components
- Prevents new fluid from oxidizing

MAXX Solutions Power Steering Treatment

Power Steering Treatment contains antioxidants, dispersants and powerful top-tier friction modifier to improve the power steering fluid's oxidation resistance, lubrication properties, and ability to withstand heat. It helps reduce deposits and sludge from forming in the power steering system and helps prevent foaming. Provides extra lubrication to power steering systems

PART# MM8112
12 Fl. Oz. 325 ml

MAXX Solutions Power Steering Fluid Red

Power Steering Fluid (red-colored) has superb performance in extreme temperatures, resisting thinning in hot weather, and thickening in the cold. Special anti-wear agents help prevent abrasion of spool valve housings and other components. Powerful antioxidants inhibit fluid breakdown and extend useful life and lubricity of the fluid. Seal conditioners keep seals pliable, preventing fluid leaks. Contains additives which meet or exceed requirements for GM 9985010, Chrysler MS-1872; MS-5931, Ford M2C195-A, Honda PN 08206-9002 PE, Mercedes PN 00 989 8803, Saab PN 30 09 800, Subaru PN KOZ09A0080

PART# MMR8364
64 Fl. Oz. 1.9 liter

MAXX Solutions Power Steering Fluid Amber

Power Steering Fluid (amber-colored) has superb performance in extreme temperatures, resisting thinning in hot weather, and thickening in the cold. Special anti-wear agents help prevent abrasion of spool valve housings and other components. Powerful antioxidants inhibit fluid breakdown and extend useful life and lubricity of the fluid. Seal conditioners keep seals pliable, preventing fluid leaks. Contains additives which meet or exceed requirements for GM 9985010, Chrysler MS-1872; MS-5931, Ford M2C195-A, Honda PN 08206-9002 PE, Mercedes PN 00 989 8803, Saab PN 30 09 800, Subaru PN KOZ09A0080

PART# MMA8364
64 Fl. Oz. 1.9 liter

MaxxMarka Cooling Exchange Service
CoolMaxx Series of Coolant Exchangers

using **MaxxMarka CoolMaxx™** machines will dissolve and remove scale, corrosion and rust from the cooling system, while simultaneously installing the new coolant. The **CoolMaxx** coolant fluid exchange machine will remove old coolant entirely, and will replace it with new coolant without entrapment of air within the system. This service is completed by adding **MAXX Coolant System Treatment** to the new coolant to protect the cooling system components.

PART# MX2

PART# MX3

PART# MX4

BENEFITS

- Removes inaccessible rust, scale and sludge from the entire cooling system
- Installs special conditioner to protect the cooling system components and controls rust and corrosion
- Helps prevent overheating and costly break down
- Helps engine at cooler temperature
- Prevents foaming
- Helps prevent cooling system leaks
- Prolongs the life of cooling system components

MAXX Cooling System Cleaner

MAXX Cooling System Cleaner is a revolutionary formulation with amazingly safe and effective cleaning capabilities. It removes tough organic deposits that result from oil fouling, grease and glycol oxidation residues yet contains no harsh chemicals. It can be used in either gasoline or diesel engines and is completely harmless to all cooling system components

PART# MM6112
12 Fl. Oz. 325 ml

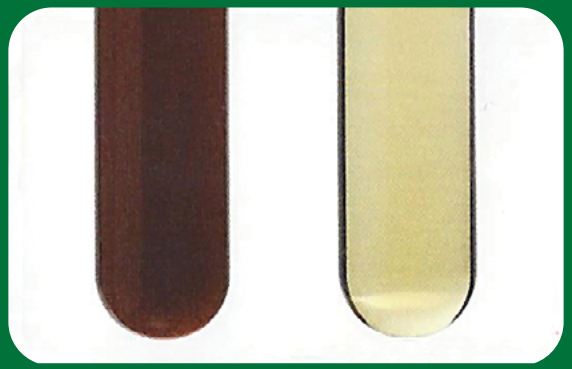
MAXX Cooling System Treatment

MAXX Cooling System Treatment is a unique formulation that restores coolant to its peak level of protection. It is designed for use in conventional, long life, hybrid, heavy duty and diesel coolants. It helps to promote more efficient heat transfer, restores critical additive balance, proper coolant pH, and provides protection against foaming and metallic corrosion

PART# MM6212
12 Fl. Oz. 325 ml

MaxxMarka Brake Fluid Exchange Service

MaxxMarka BrakeMaxx™ machine will quickly remove air, moisture, and the contaminated, oxidized and corrosive brake fluid fron the entire brake system, and will replace it with **MAXX Brake Fluid.** New anti-lock brake systems (ABS) are very sensitive to fluid deterioration. Furthermore, deposits and varnish buildups may lead to serious malfunction of the brake system. Hence, the **MaxxMarka BrakeMaxx™** will perform brake fluid exchange, and will bleed high-tech brake systems in all vehicles including the newest generation of hybrid vehicles that require higher pressure to bleed the regenerative braking system.



Brake fluid BFORE (left) and AFTER (right) Service

Harmful deposits and varnish buildup - resulting from worn-out, oxidized brake fluid - are apparrent on this brake master cylindere piston assembly.

BENEFITS

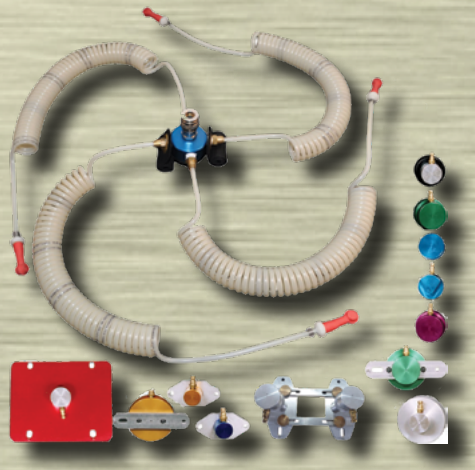
- Removes and replaces old, oxidized brake fluid with new fluid.
- Keeps vehicle's brake operation safe, ABS system or Hybrid vehicles
- Increases the efficiency of the brake system
- Helps prevent costly break down and prolongs the life of the brake hydraulic system
- Flushes and bleeds the brake system in 10 minutes

PART# MX8

MaxxMarka BrakeMaxx™ MX8

The **BrakeMaxx™ MX8** DOT features two special fiberglass canisters with a combined capacity of 10 liters, easy to use and maneuvers around the shop due to its 5" swivel casters that allow it to easily be moved into any tight space.

Octopus w/Adapter Set



PART# MM8532
32 Fl. Oz. 946 ml

MAXX DOT 3 Brake Fluid

Provides the ultimate high temperature protection and moisture resistance for all DOT 3 disc and drum brake systems. Performs a variety of very important functions in the braking system. Lubricates and protects rubber and metal components of the braking system It transmits the required power, minimizes corrosion and controls proper seal swelling.
Vehicle Safety Standard (FMVSS) 116 DOT 3, SAE J1703 and ISO 4925. Wet Boiling Point 284F, Dry Boiling Point 450F.

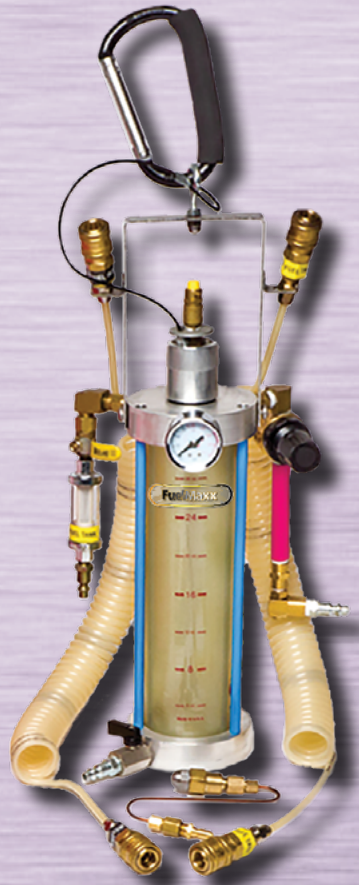
PART# MM8632
32 Fl. Oz. 946 ml

MAXX DOT 4 Brake Fluid

Provides the ultimate high temperature protection and moisture resistance for all DOT 4 disc and drum brake systems. Performs a variety of very important functions in the braking system. Lubricates and protects rubber and metal components of the braking system It transmits the required power, minimizes corrosion and controls proper seal swelling.
Vehicle Safety Standard (FMVSS) 116 DOT 4, SAE J1704
and ISO 4925. Wet Boiling Point 311F, Dry Boiling Point 475F.

MaxxMarka Fuel Injection Cleaning Service

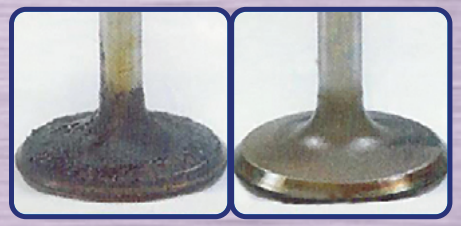
MaxxMarka FuelMaxx™ will remove harmful deposits and will clean the entire fuel induction and exhaust system. The **FuelMaxx™ Vehicle Injection Apparatus**, using **Maxx Solutions Fuel Injection Cleaner**, and **Maxx Solutions Air Intake Cleaner,** provides highly effective cleaning of the entire fuel and air induction system. This service is completed by adding **Maxx Solutions Fuel System Cleaner** in to the fuel tank to remove combustion chamber deposits, and to clean fuel lines, fuel tank and all other critical fuel components.

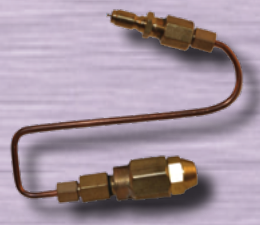


PART# MM9100

Vehicle Injection Apparatus

The Maxx FuelMaxx™ provides a highly effective "on engine" cleaning of the entire fuel system. It is pressurized by shop air. It is designed to be used with **Maxx Solutions Fuel Injection System Cleaner**, and **Maxx Solutions Air Intake System Cleaner.**





New Air Intake Long S Sprayer Tip for Injector Cleaner, Valve & Combustion Chamber

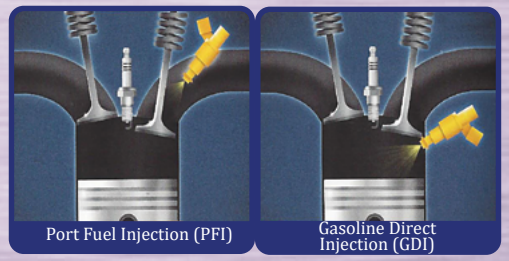
Longer Intake Sprayer helps avoid problems by going deeper and allowing you more access than the short Intake Sprayer.
The Air Intake System Cleaning Tool allows a technician to clean the throttle body, plenum and combustion chamber

Master Fuel Injection Set

Master Fuel Injection Set
Contains all items necessary for checking the fuel injection systems on most domestic and foreign cars. Features a large 3 1/2″ gauge head with dual readings of 0-145 PSI and 0-1000 KPA, and a 2 1/2″ gauge with dual readings of 0-15 PSI and 0-100 KPA. Kit includes adapters and hose assembly numbers 2150, 2200, 2300, 2350, 2400, 2410, & 2420. All adapters, gauge heads, and hose assemblies are fully quick disconnect. Comes complete with rubber gauge protectors, instructions, and blow molded carrying case.

BENEFITS

- Restores “like new” engine performance
- Restores fuel economy and horse power
- Reduces harmful emission
- Helps make engine idle smooth
- Eliminates pinging, knocking and lack of power



Port Fuel Injection (PFI)

Gasoline Direct Injection (GDI)

Fuel Injection System Cleaner

Fuel Injection System Cleaner is a specially formulated blend of solvents, high molecular-weight dispersants and deposit control additives which will quickly, effectively and safely clean fuel injector & help remove upper engine deposits, This is designed to be used with the **FuelMaxx™ Vehicle Injection Apparatus**. Not harmful to any fuel system components. Catalytic Converter and Oxygen Sensor safe.

PART# MM2312
12 Fl. Oz. 325 ml

Throttle Body Cleaner

Throttle Body Cleaner A powerful blend of detergents and solvents for rapid break down and removal of sludge, varnish, and gum deposits from fuel delivery systems on 4 oz./12 Bottles Per Case

PART# MM2804
4 Fl. Oz. 118 ml

Air Intake & Combustion Chamber Cleaner

Air Intake Cleaner is an extremely effective solvent/degreaser formulation that quickly removes sticky, heavy deposits which accumulate in the air throttle body assemblies and plenums of modern, multi-port fuel injected engines. Cleanup reduces harmful exhaust emmisions and restores engine performance. Catalytic converter and oxygen sensor safe. **Air Intake System Cleaner** is designed to be used with the **Vehicle Injection Apparatus**.

PART# MM2212
12 Fl. Oz. 325 ml

Fuel System Cleaner

Fuel System Cleaner safely, rapidly and thoroughly removes engine deposits in combustion chambers, intake manifolds, ports and on valves. It restores flow in the fuel injectors and cleans the entire fuel system.**Maxx Solutions Fuel System Cleaner** improves fuel economy and reduces exhaust emisions. It restores that “like new” driveability to the engine’s performance and keeps it running better, longer and more efficiently. Add one can to fuel tank every 10,000 km.
Catalytic Converter and Oxygen Sensor safe.

PART# MM2512
12 Fl. Oz. 325 ml

MAXX Solutions Transmission Fluid and Additives

MAXX D/M ATF is a premium quality, part-synthetic transmission fluid specially designed for use in automatic transmissions in most passenger cars and light trucks. It has been extensively field tested for use in most North American vehicles and in a wide variety of European and Japanese vehicles.

32 Fl. Oz. 946 ml

MAXX CTV Fluid is a premium quality, full-synthetic transmission fluid specifically designed for use in passenger cars with belt-driven continuously variable transmissions. It has been specifically engineered to have the unique frictional properties required for use in this type transmission.

32 Fl. Oz. 946 ml

BENEFITS

- Prevents transmission from hard shifting
- Helps avoid transmission slipping and chattering
- Prevents new ATF from oxidizing
- Prolongs the life of the transmission and avoids costly repair
- Helps run the car efficiently
- Prevents transmission fluid leak by keeping the seals soft & pliable

MAXX Transmission System Cleaner

MAXX Transmission System Cleaner is a safe and effective solvent/dispersant cleaner that will quickly remove accumulated deposits from the valve body, filter screen and other automatic transmission components.
This product is designed for use in the **MaxxMarka TransMaxx™** transmission fluid changer.

PART# MM7202
12 Fl. Oz. 325 ml

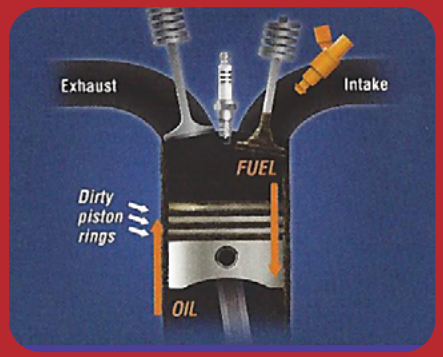
MAXX Transmission Treatment

MAXX Transmission Treatment enhances properties of both new and used automatic transmission fluid. It improves fluid oxidation stability, there by prolonging fluid life and the life of the transmision. It prevents leaks by conditioning hardened seals keeping them soft and pliable. **MAXX Transmission Treatment** helps control transmission shudder, retards formation of sludge and varnish deposits and prevents foaming.

PART# MM7112
12 Fl. Oz. 325 ml

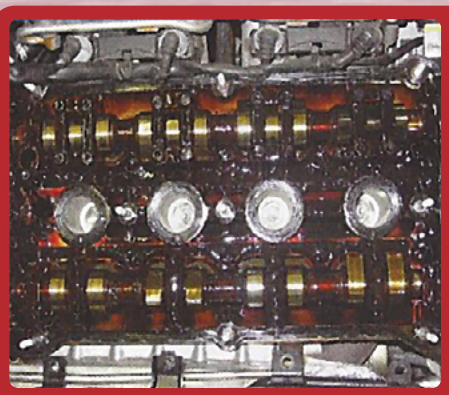
MAXX Solutions Oil Service

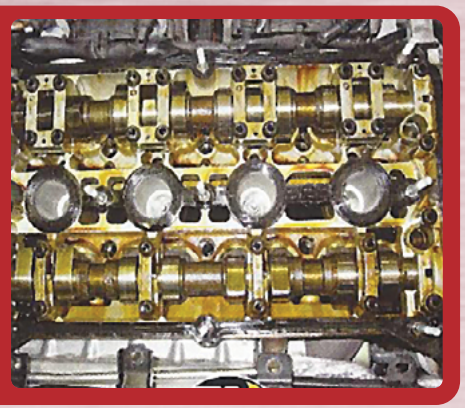
MAXX Peformance Oil Service, using **MAXX Oil Cleaner**, will dissolve and remove harmful deposit buildups in the engine crankcase and rings, and will increase engine compression. This service will restore lost engine compression back to OEM specification by cleaning the engine compression rings. This service is completed by adding **MAXX Oil Conditioner** to the new oil to prevent it from oxidizing and to protect the engine under even the most severe stop-and-go, desert high temperature driving conditions and also by adding **MAXX Fuel Injector Cleaner** to the tank to clean the entire fuel system including fuel tank, line, injectors, dissolve and clean baked-on deposits from tip of the injectors, pistons tops and combustion chambers.



Port Fuel Injection (PFI)

Gasoline Direct Injection (GDI)





BENEFITS

- Eliminates and controls deposit buildups.
- Restores engine power and performance.
- cleans engine rings and optimizes engine compression.
- Helps engine smoothness.
- Ensures prolonged bearing protection.
- Prolongs the life of engine.
- Prevents new oil from oxidizing.
- Cleans fuel system including injectors, injector tips and combustion chambers.

Fuel injector BEFORE
Maxx Solutions Oil Treatment

Fuel injector AFTER
Maxx Solutions Oil Treatment

Engine Oil Conditioner

Engine Oil Conditioner is a ash less top-tier friction modifier that extremely reduces dynamic coefficient of friction in gasoline and diesel fueled engines. This non-metallic friction modifier enhances the performance of any oil it is added to, by creating a low-friction film at the metal-to-metal interfaces. Reduced friction effects also help eliminate wear and extend useful engine life. **Maxx Solutions** Engine Treatment reduces friction and improves fuel economy in both older and newer heavy-duty diesel and gasoline engines. It is compatible with all mineral oil and synthetic based engine oils

PART# MM5202
12 Fl. Oz. 325 ml

Engine Oil Cleaner

Engine Oil Cleaner is a specially formulated blend of solvents, high molecular-weight dispersants and deposit control additives which will quickly, effectively and safely clean fuel injecctor & help remove upper engine deposits. Not harmful to any fuel system components. Catalytic Converter and Oxygen Sensor safe.

PART# MM5302
12 Fl. Oz. 325 ml

MAXX CARB & CHOKE

MAXX Solutions Carb & Choke Cleaner penetrates and dissolves dirt, gum, carbon, and varnish deposits that can impede moving parts.

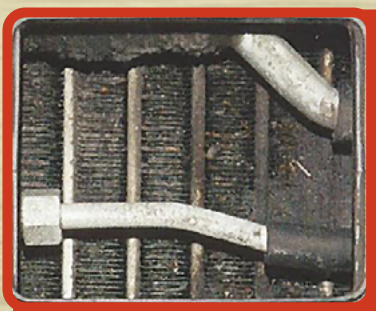
BENEFITS

- Helps treat hard starting, rough idling, stalling and high exhaust emissions
- Cleans gum, varnish and dirt off the outside of the carburetor
- Cleans the inside of the carburetor throat
- Improves engine performance
- Increase fuel economy
- Restores power
- Reduces emissions

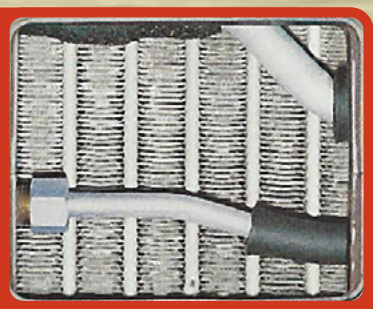
MAXX ICY AC CLEANER

BENEFITS

- Removes foul odors associated with bacteria, mold, fungi and road grime
- Removes nicotine, oil and debris from the AC evaporator system
- Restores heating/cooling efficiency and refreshes interior air
- Keeps evaporator for a long lasting operation
- Powerful long lasting deodorizers keep interior smelling fresh and clean



BEFORE: Odors, bacteria, mold, spores, fungi, road grime, nicotine oils and debris accumulate in your car's air conditioning evaporator



AFTER: ROC Cool CLean restores heating/cooling efficiency and freshens interior air.

MAXX ICY CLEAN AC Cleaner is a unique cleaning solution designed to quickly and effectively remove foul odors, bacteria, mold, spores, fungi, road grime, nicotine oils and debris that accumulate in the car's air conditioning evaporator.

MAXX ICY CLEAN AC Cleaner is injected directly into the evaporator case. It foams up to completely fill the evaporator core where it blasts away bug parts, pet hair, nicotine residue and other garbage.

MAXX ICY CLEAN AC Cleaner is biodegradable, non-toxic and non-corrosive.

LUMI Light Headlight Restoration Kit

LUMI Light will restore yellow, cloudy headlights to bright, clear brillance!

BENEFITS

- Improves your night vision by as much as 90%
- Improve your vehicle appearance & safety
- Limited lifetime warranty with UV protection
- Clearest, hardest,most durable lens coating

LUMI Light

Most headlight repair kits today are based on short term solutions which require repeated maintenance. This includes temporary polishing systems that do not last, even when a clear coat is applied.
By contrast, **LUMI Light** is engineered with the most permanent UV-A absorbers available. **LUMI Light** provides for chemical, water, heat and abrasion resistance, unlike any other products available on the market.

Includes the Following:

A. Aerosol Can / Services One (1) Vehicle
B. 2 Sheets of 600 Grit Wet Sandpaper
C. 2 Alcohol Towelettes
D. 2 Lint Free Towels
E. 1 Instruction Sheet
F. 1 (pr) Latex Gloves
G. Warranty Card
